PRESS RELEASE

U.S. Departments of Justice and Commerce and the European Commission Reaffirm Shared Values, Welcome Finalized EU-U.S. Data Privacy Framework

Monday, July 17, 2023

Attorney General Merrick B. Garlan European Commissioner for Justice today marking the European Union Privacy Framework (DPF). Third Time's the Charm? "Privacy Shield 2.0" Emerges as EU Approves New Data Transfer Deal with the United States

10 July 2023 | Innovative Technology Insights | Blog Author(s): Samuel D. Goldstick

Why Should You Self-Certify?

- o Brand & reputation
- o Privacy Shield legacy
- Foundation to combat legal challenges
- Client and consumer expectations
- If you're already certified through Privacy Shield there's no question you should
- Certifying now will provide material legal benefits

What are the pros and cons of joining DPF?

Pros:

- No Transfer Impact Assessment required! Exporter (i.e., customer/vendor/affiliate) comfort
- Optics for public and business partners
- Incentive for regulators/agencies to ensure DPF is not invalidated.
- Reduced contractual obligations
- Easy if already under Privacy Shield
- May avoid EU regulatory oversight

Cons:

- Not available to companies who cannot be subject to the FTC or DOT (banks, nonprofits, telecom)
- Subjects companies to oversight by Dept. of Commerce and FTC
- Must implement additional independent recourse mechanisms
- Logistical issues if primarily relying on SCCs

Framework Overview

- Provides EU, UK & Swiss consumers rights (access, correction, deletion).
- Organizations that maintained certification under Privacy Shield may begin relying immediately on the DPF.
- Must inform consumers about data processing.
- Provide free & accessible dispute resolution.
- Maintain data integrity and purpose limitation.
- Ensure accountability for third-party data transfers.
- Transparency in enforcement actions.

Steps to Certification

- Determine Scope: HR <u>and</u> Non-HR Data?
- Collect Documentation:
 - Information Security Policy
 - Internal Privacy Policy
 - Data Subject Rights Policy / Guidelines and communication template(s)
 - Consent Management Policy / Guidelines how are changes in consent tracked and managed?
 - Data Processing Agreements
 - Internal Privacy Notice (HR-only)
 - RoPA/Data Mapping Process (optional)
- Conduct DPF Assessment
- Update Website Privacy Notice(s) by October
- Self-Certification Attestation through the ITA portal

Assessment Overview

- Analysis of the company's use and treatment of personal data, and the access and recourse mechanisms provided to individuals.
- Aligned to:
 - 7 DPF Principles:
 - Notice
 - Choice
 - Accountability for Onward Transfer
 - Security
 - Data Integrity and Purpose Limitation
 - Access
 - Recourse, Enforcement and Liability
 - 16 Supplemental Principles that explain and augment the core 7.

Overlap with Other Assessments & Requirements

• Has equivalencies with GDPR, CPRA, & CPA

- 1. Maintaining Website Privacy Notice(s)
- 2. Managing and tracking consent
- 3. Fulfilling Data Subject Rights Requests
- 4. Taking reasonable and appropriate measures to protect personal data from *"loss, misuse and unauthorized access, disclosure, alteration and destruction"*
- 5. Purpose limitation and data minimization
- 6. Restrictions on data transfer, vendor management

EU-US DPF Timeline & Possible European Division

- When will final rules be available?
- When should you start certification?
- What about the UK and Switzerland?
 - The UK is likely to be encompassed.
 - Could Switzerland go their own way?
- Do you see this affecting other adequacy decisions?

Monitoring & Enforcement

- European Data Protection Board (EDPB)
 welcomed DPF's "substantial improvements."
 - European Commission will continuously monitor developments in the US and conduct periodic reviews
- FTC and DOT commitment to enforcement penalties of up to \$50,120 per violation.
- Withdrawal process:
 - Withdrawal or Failure to Re-Certify Questionnaire
 - o Retain, Return or Delete Data
 - Annual \$200 fee to use previously transferred data

Summary

Decide if now is the time to certify for your organization

If you do decide to certify, begin reviewing privacy operations and documentation

Keep your program up to date - compliance will be enforced

Help is available - consider a consultant
